Lab Manual

Name: Thakrar Jeet Devendrkumar
Enrolment No: 92510103047
Class: 5EC1
Batch: B

INDEX

Lab	Program	CO	Date	Marks				Total	Signature
				R1(4)	R2(2)	R3(2)	R4(2)	(10)	
1.	Develop Student Admission Management Module using OOP Concepts (Class, Object, Constructor, Access Modifiers).	CO1							
2.	Design Employee Payroll System using Inheritance, Interface & Polymorphism	CO1							
3.	Develop Expense Tracking Module with Exception Handling	CO1							
4.	Build Online Event Registration Portal using ASP.NET Controls & Validation	CO2							
5.	Develop Academic Calendar & Leave Management System using Rich Controls, Session & Cookies	CO2							
6.	Create Product Catalog Application using ASP.NET MVC Architecture. (Controllers, Models, Views, Routing)	CO3							
7.	Develop Feedback Management Module using MVC Layout, Partial View & Validation. (HTML Helpers, Validation, Layouts)	CO3							
8.	Develop Inventory Management Module using ADO.NET & CRUD Operations	CO4							

9.	Create Placement Dashboard using Data Controls & Crystal Reports	CO4							
10.	Build Student Management REST API using ASP.NET Core (Middleware, API, Project Structure)	CO5							
11.	Develop Smart Campus Service Portal – Feature Extension (Integrate MVC + Database + API)	CO1, CO2, CO3, CO4, CO5							

R1	Practical Performance
R2	Timely Submission
R3	Neatness & Documentation
R4	Uploaded on Git

Experiment 1

AIM: Develop Student Admission Management Module using OOP Concepts (Class, Object, Constructor, Access Modifiers).

Source: Program.cs

Code:

```
using System;
using System.Collections.Generic;
using System.Linq;
using System.Text;
using System.Threading.Tasks;

namespace Practical_1
{
    internal class Program
    {
        static void Main(string[] args)
        {
            Student s1 = new Student();

            s1.applicaiton();
            s1.isscholar();
            s1.showdata();

            Console.ReadKey();
        }
    }
    class Student
    {
        public int enrollment;
        public string name;
        public int age;
        public string Dep;
        private int fees;
        private bool scholar;
        private double finalfees;
        public Student()
        {
            enrollment = 0;
            name = "";
            age = 0;
            Dep = "Computer Eng";
            fees = 0;
            scholar = false;
            finalfees = 0;
        }
```

```
public void applicaiton()
{

    Console.WriteLine("-----------------------------------");
    Console.WriteLine("    Wellcome to Student Module");
    Console.WriteLine("-----------------------------------");

    Console.Write("Enter the enrollment no.: ");
    enrollment = Convert.ToInt32(Console.ReadLine());

    Console.Write("Enter the Name: ");
    name = Console.ReadLine();

    Console.Write("Enter the age: ");
    age = Convert.ToInt32(Console.ReadLine());

    //Console.Write("Enter the Department: ");
    //Dep = Console.ReadLine();

    Console.Write("Enter the Fees: ");
    fees = Convert.ToInt32(Console.ReadLine());
}

public void isscholar()
{
    if (fees <= 50000)
    {
        scholar = true;
    }
    else
    {
        scholar = false;
    }
}

public void showdata()
{
    finalfees = fees;
    if (scholar)
    {
        finalfees = fees - (fees * 0.10);
    }

    Console.WriteLine("");

    Console.WriteLine("-----------------------------------");
    Console.WriteLine("         Student Details");
    Console.WriteLine("-----------------------------------");

    Console.WriteLine("Name of Student: " + name);
    Console.WriteLine("enrollment : " + enrollment);
    Console.WriteLine("age : " + age);
```

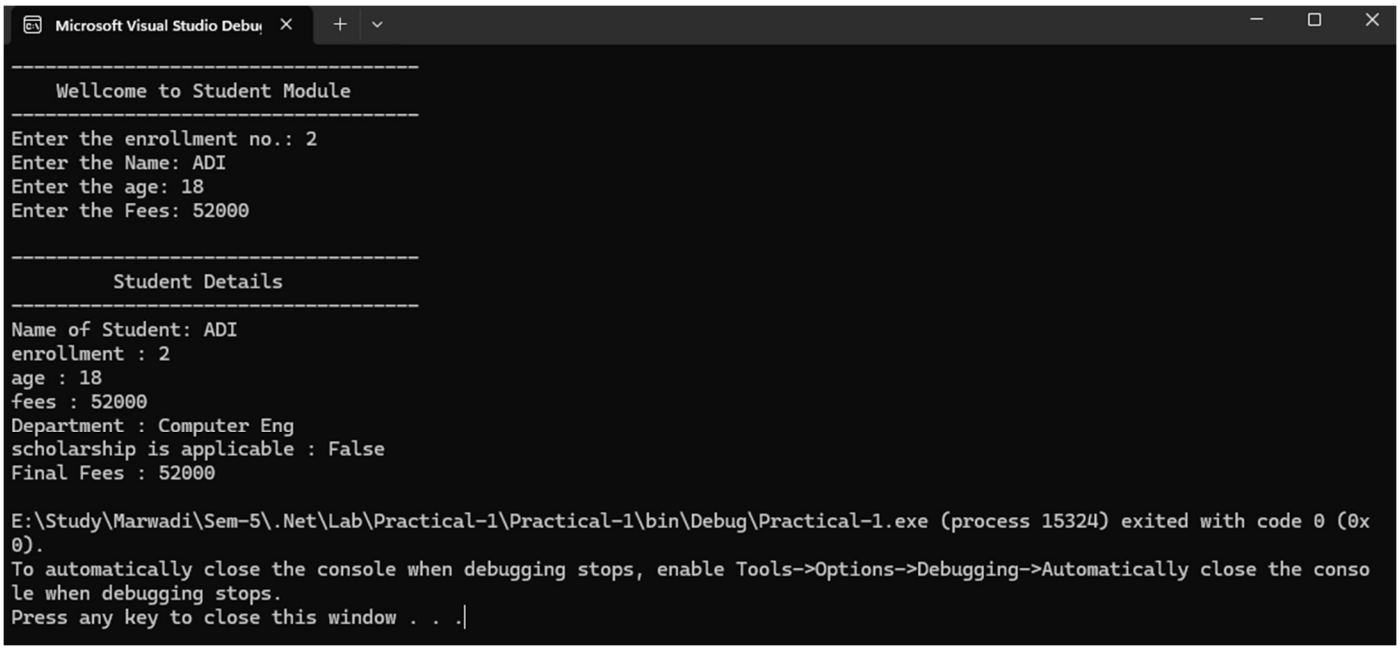

```
            Console.WriteLine("fees : " + fees);
            Console.WriteLine("Department : " + Dep);

            Console.WriteLine("scholarship is applicable : " + scholar);
            Console.WriteLine("Final Fees : " + finalfees);
            Console.ReadKey();
        }
    }

}
```
